Coil100

ELECTRIC COIL INSERTING AND CRIMPING

Stand Alone or Modular Use
Shown with optional Punch100-30 support for stand-alone use

- Inserts spiral plastic coil into booklets
- Integrated manual coil cutter & crimper
- Works as stand-alone unit or with Punch100
- Binds up to 80 books per hour
- Heavy duty all-metal construction

FORMAX®

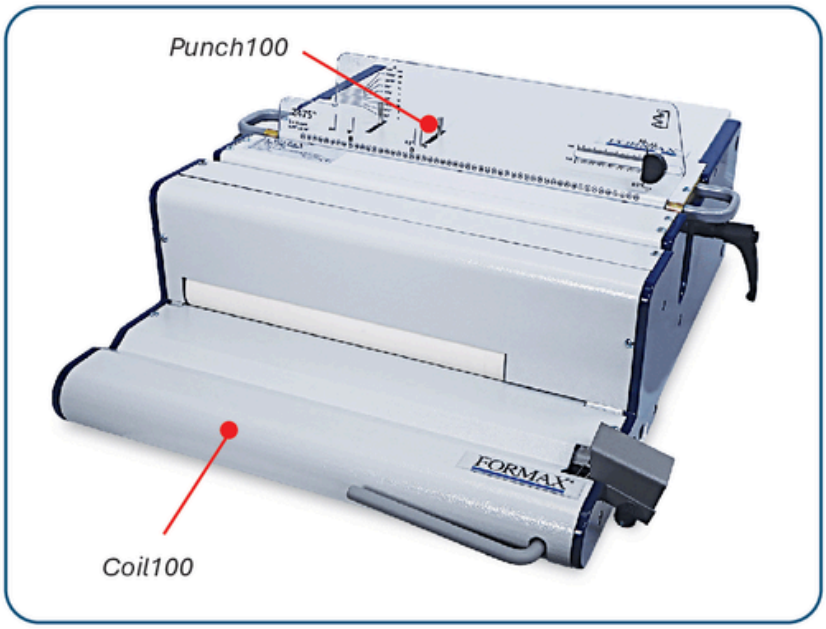

The **Coil100 Electric Coil Inserter** is the ideal compact solution for binding and finishing booklets. Its modular design allows for use on its own or with the **Punch100** for a complete punch and bind system. The easy-to use **electric rubber roller** threads the coil through the document quickly and effectively. The roller includes an **automatic stop** feature for operator safety. The Coil100 works with coil elements from 6-20mm independent of pitch. Its convenient **integrated coil cut and crimp unit** gives the perfect finish to your document and crimps the plastic coil at a 45 degree angle. Plastic coils are incredibly durable and allow documents to be opened completely flat or folded back on themselves for convenient viewing.

Electric Coil Inserter
Convenient rubber roller effortlessly inserts spiral coils

Integrated Coil Finishing
Cutting and crimping tool included for the perfect finish

Modular Use with Punch100
For seamless punching and binding operation, simply attach to the front of the Punch100 using the integrated mounting pins
