Accurate. Versatile. Durable. Profitable. Proven.

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. Our flexible, semi-rigid cutters replace the traditional method of straight edge and knife. The TITAN cuts and trims a variety of materials ranging from the most delicate photo paper and silks to semi-rigid materials with a simple switch of the cutting head position. The GEMINI PRO cuts a variety of materials up to 120" in length. Recommended for cutting large format graphics.

Flexible/Semi-Rigid Materials Unique Performance Features

TITAN

- Dual head position for cutting and trimming
- Through-cutting for semi-rigid materials
- Trimming feature for flexible vinyls, photo paper and canvas
- No need for two cutters dedicated to each function; saves on space and equipment investment
- Engineered "green" strip gives you a visible cut line; no need for guesswork

GEMINI PRO

- Utilize table-mounted elevators to raise cutter above graphics for positioning cut line
- No repositioning of the straight-edge required; allows you to line up the material for the entire length of the cut
- Eliminate fatigue/injuries while working with large graphics

Squaring arm keeps materials straight and secure

Material waste catcher keeps shop area clean and organized

Stand unit contains locking wheel feature allowing easy shop mobility
