TSI-4

Intelligent and easy
Document Processing

- An easy-to-use desktop folder inserter that can be used to process all your mail

A DEPENDABLE
ALL-IN-ONE
MAIL MANAGEMENT
SOLUTION

The TSI-4 is able to quickly and automatically process all standard mail management services as well as direct marketing applications.

This is achieved thanks to an easy-to-use graphic touch screen and highly developed ergonomics. Designed on the basis of a tried and tested platform, it is 100% reliable.

Your mail will be processed on time, every time.

MAXIMUM FLEXIBILITY FOR YOUR APPLICATION

The TSI-4 can be configured in several different ways and adapted to meet your every need. This versatility will automate your transactional mail targeted at customers and prospects to further develop your business activity. The flexFeed® function processes all document sizes including inserts, reply forms and return envelopes.

Additionally, the manual mail function allows you to process both stapled and unstapled mail that may contain a variable number of documents depending on the recipient.

TOUCH SCREEN

The 14 cm color display provides an intuitive wizard-based user interface for ease-of-use.

ENHANCED EASE OF USE

The TSI-4 is equipped with a 5.7" graphic touch screen that makes it easy to use and allows applications stored in the memory to be accessed quickly. A step-by-step wizard allows all users to define settings for their applications and store them in the memory for job recall.

The TSI-4 is a model of ergonomic efficiency and as such is well suited to automated processing. Additionally, its compact size and low noise level make it suitable for use in every work environment.

FLEXFEED®

flexFeed® feeders
accommodate a wide
variety of paper sizes

All-In-One Mail Management Solution

Graphic Touch Screen - For Intuitive Use

POWERFOLD™ - For Professional Folding

FLEXFEED® - To process each and every one of your

Mail Management Applications

Low Noise Level and Compact Size

- To suit every Work Environment

MAXIMUM SECURITY

The TSI-4 is also able to automate the processing of mail that contains a variable number of documents. The OMR scanner system allows you to automate the assembly of documents to be inserted for each recipient and it automatically stops the machine should the contents of a mail piece be incorrect. The TSI-4 guarantees the integrity of your mail whatever the circumstances.

INTEGRATED PROCESS

With our insert'n Mail™ solution, you can automate your total mail flow by interfacing the TSI-4 to a intimus mailing system.

A choice of four configurations to cover all your mail management applications.
