

The Educator - 25" School Laminator

- Most popular school model
- Easy to use
- Preset speed
- 25 years of proven reliability
- 2-year parts and labor warranty

We asked educational professionals what they wanted in a laminator. They told us ease of use, reliability, value, and low maintenance. That's what we designed into the **Educator**.

Easy To Use

- Simple controls and film path reduce operator errors
- Preset speed control
- Laminates different types of material using a variety of films with minimal operator adjustment
- Instructional video and operator manual included

Great Value

- Laminating protects teaching aids, eliminating damage or costly replacement
- 2-year manufacturer's parts and labor warranty
- Toll free telephone support

Reliable

- More than 25 years of proven reliability
- Our most popular school laminator
- Made in the USA

FEATURES

- **Preset lamination pressure and speed** means easier to use and eliminates potential sources of problems.
- **Enclosed laminating and pull rollers** helps avoid jams and wrap arounds. Rollers are interchangeable.
- **Forced air cooling** allows laminating with 3 and 5 mil films as well as the 1.5 mil film often used by schools. This system eliminates wrinkles sometimes associated with thicker films.
- **Fixed-position lamination rollers** stable platform for uniform roll pressure to ensure high-quality lamination.
- **Attached safety shield** protects the operator and allows users to see their work with the safety shield in its proper protective position.
- **Removable power cord**
- **Reverse switch** helps avoid problems and clear misfeeds.
- **Adjustable heat control** allows the use of films up to 5 mils thick, just by turning a dial.
- **Supply roll tension knobs** provide the control needed to get wrinkle-free lamination.
- **Separate safety cutter** provides a safe means of cutting work off the back of the machine – no tear bar which could cut fingers or snag clothing.
