Punch100

ELECTRIC PUNCHING SYSTEM

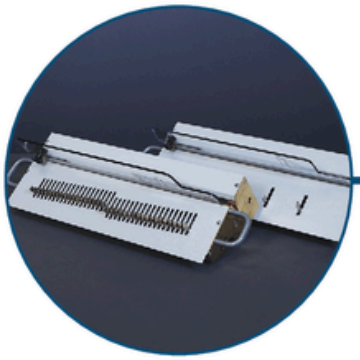

Convenient foot pedal activates punch mechanism

- Modular design for application flexibility
- Heavy duty electric punching system
- Convenient foot-pedal activation
- Quick-change dies for double-loop wire, plastic comb, spiral coil
- Precision vertical punching for consistent hole placement

FORMAX®

The **Punch100 Electric Punching System** provides the flexibility to grow with your business. Whether used as a powerful stand-alone punch, or paired with the **Wire100, Comb100**, or **Coil100 Binding System**, it allows you to produce professionally bound documents, all from one versatile platform. Its **precision vertical punching system** utilizes gravity to keep every sheet in place, for consistent hole placement even on thicker document sets. **Disengageable punch pins** make setup fast and reliable, and the convenient **foot pedal** provides greater operator efficiency. A wide of variety of **interchangeable dies** can be swapped easily without tools, allowing for multiple binding styles without investing in another punch. For even greater productivity, it can be used in an assembly line manner with multiple operators: one punches while the others bind.

Heavy Duty Interchangeable Dies
Configure for any binding style, without buying a separate punch.

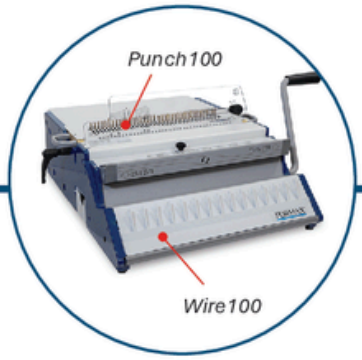

Easy Access to Punch Pins
Disengage selected pins to prevent partially punched holes. No tools required.

Formax ReadyWire Binding
Patented sheets keep them organized, undamaged and easy to remove.

Precision Vertical Punching
Utilizes gravity for consistent hole placement.

Optional Binding Modules
Use Punch100 as a stand-alone, or with a Binding Module (Wire100 shown).

Foot Pedal Activation
Convenient, efficient foot pedal keeps production moving quickly.

STANDARD FEATURES

- Heavy duty modular punching system
- Can be used on its own, or paired with optional binding modules
- Dies available for double-loop wire, plastic comb, spiral coil
- Precision vertical punching system
- Quick, easy die changes, with no tools required
- Disengageable punch pins
- Punches a variety of mixed stocks
- Rugged, compact design
- Easy access slide-out waste tray
- Adjustable depth gauge
- Variety of punch patterns available

OPTIONAL PUNCHING DIES

- Punch100-10: 3:1, 4x4mm
- Punch100-11: 3:1, 4x4mm
- Punch100-12: 3:1, 4x4mm, thumb cut
- Punch100-13: 3:1, 4mm round
- Punch100-14: 3:1 pitch, 4mm round, thumb cut
- Punch100-15: 2:1, 5.5x3.5mm
- Punch100-16: 2:1, 6x6mm
- Punch100-17: 2:1, 6mm round
- Punch100-18: 8x3mm, plastic comb
- Punch100-19: .25", 5x4mm, spiral coil

BINDING MODULES*

- Wire100: Manual closing system for wire bindings
- Comb100: Manual closing system for plastic comb bindings
- Coil100: Manual closing system for plastic spiral coils

** Binding modules (available separately) can be used with the Punch100 or as stand-alone units*

SPECIFICATIONS

Punching Speed	Up to 1,200 sheets/hr
Modular	Yes
Punching Width	.39" - 13.4" (10 - 340mm)
Unpunched Length	1.57" - 31.5" (40 - 800mm)
Max. Punching Thickness	Up to 0.137" (3.5mm)
Punching Operation	Electric, foot pedal
Punch Dies Available in 2:1 or 3:1 Pitch	Double-loop wire, spiral coil, plastic comb
Disengageable Punch Pins	Yes
Variable Margin Depth	Yes
Dimensions	22" W x 14" D x 9.8" H (559 x 356 x 250mm)
Weight	76 lbs. (34.5kg)
Power Supply	120V, 60Hz, 250W
