Punch100A

SEMI-AUTOMATIC ELECTRIC PUNCH

PROFESSIONAL SEMI-AUTOMATIC PUNCHING SYSTEM

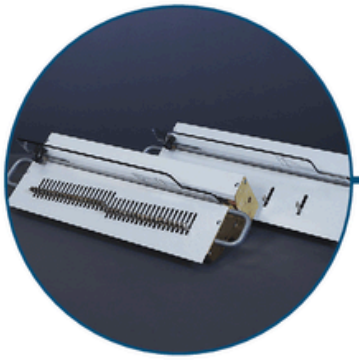

Punch mechanism activated by foot pedal or automatic sensor

- Semi-automatic electric punch
- Automatic paper ejection after punching
- User-friendly control panel
- Paper stop with automatic sensor
- Fastest in its class

FORMAX®

Fast, reliable, and built for heavy-duty performance, the **Punch 100A Semi-Automatic Electric Punch** is ideal for a wide range of binding applications. Its **precision vertical punching system** utilizes gravity to keep every sheet in place, for consistent hole placement even on thicker document sets. The **adjustable paper stop** features an **auto sensor** which instantly engages the punching mechanism, then **automatically ejects sheets** onto the catch tray, keeping them neat and ready for binding. It accommodates a wide variety of **interchangeable dies** which can be swapped easily without tools. With its combination of professional features, the Punch100A delivers up to three times the productivity of standard tabletop punching machines.

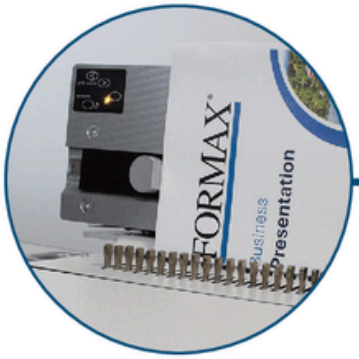

Heavy Duty Interchangeable Dies
Configure for any binding style, without buying a separate punch

Convenient Document Shelf
Keeps document pages in order and ready for punching

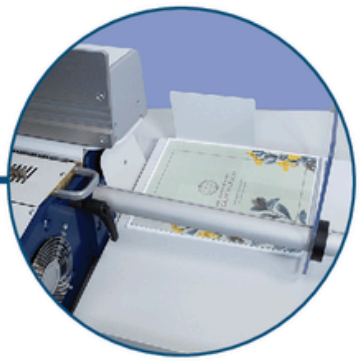

Easy Access to Punch Pins
Disengage selected pins to prevent partially punched holes. No tools required.

Paper Stop with Auto Sensor
Activates when paper is inserted, for accurate punching

User-Friendly Control Panel
Paper format, pitch adjustment and auto sensor on/off

Adjustable Catch Tray
Keeps punched sheets neat and organized, reading for binding
