

SpectrumDS Transfer Paper

SpectrumDS - Flex

Engineered for dye sublimation transfer, the specially coated sublimation paper allows flexibility in performance. Quick dry times and vivid color transfer makes the Spectrum DS – FLEX the smart option for interior designs, advertising, soft signage and more.

Applications: Banners, Flags, Gaming Felts, Apparel, Mugs, Mouse Pads, Tradeshow Exhibits and More

SF09006404923	SpectrumDS – Flex 90 gsm 64" x 492', 3" core

SpectrumDS - Active

Manufactured for active wear fabrics, the Active line of SpectrumDS sublimation transfer paper is coated with a special heat activated adhesive to ensure textiles stick to the transfer paper. Reduce blurry or unsightly lines during the sublimation process by ensuring your materials line up and stay that way.

Applications: Sports and Swim Wear, Active Apparel, High Value Cut & Sewn Fabrics and More
