	5090, 5390, 5690	Double Reverse

The machines listed are tab-capable, according to their manufacturer. While DocuCopy tabs have not been tested in all of them and we cannot guarantee satisfactory tab performance in every situation, test samples and templates are available. Contact your sales representative for more details.

Many other machines not listed here can also print onto tabs, even though they may not be equipped to print tabs in sequence and automatically insert them into finished documents. This includes many low to mid-volume copiers and printers. In those situations, use uncollated single position tabs and print one tab position at a time; use the machine's bypass feed feature if necessary.

To download print templates go to www.docucopyproducts.com.

This information is accurate to the best of our knowledge but is subject to change.
